## ASX Announcement Baruun Noyon Uul Production Update

Guildford Coal Limited (**Guildford** or the **Company**) (ASX: GUF) is pleased to announce operations at the Baruun Noyon Uul mine (**BNU Mine**) will recommence following the successful completion of the trial batches of coal.

The Company is on track for meeting the targeted coal volumes specified in previous announcements. These volumes have been forecast further and total volumes are summarised in the table below:

|                  | Dec 14 | Jan 15 | Feb 15 | Mar 15 | Apr 15 | May 15 | Jun 15 | Jul-Dec 15 | Total |
|------------------|--------|--------|--------|--------|--------|--------|--------|------------|-------|
| HCC Tonnes(kt)   | 10     | 50     | 65     | 65     | 84     | 93     | 99     | 558        | 1,024 |
| PCI Tonnes (kt)  | 20     | 20     | 20     | 10     | 6      | 7      | 6      | 77         | 166   |
| Total Prodn.(kt) | 30     | 70     | 85     | 75     | 90     | 100    | 105    | 635        | 1,190 |

Results from the testing of the second trial batch of coal (14,300t) are now expected to be received by the end of November and the Company will update the market once received.
