

TERRACOM

Environmental Policy

TerraCom Limited

ACN : 143 533 537

Objective

To communicate to staff, the general public and all other interested parties, our commitment to sustainable environmental practice.

Scope

This policy applies to all personnel and contractors where applicable who are engaged to work for TerraCom Limited (TC).

Policy

TerraCom Limited is committed to preserving the quality of the environment and minimising any impact that may affect other stakeholders.

In conducting our business, we strive to practically apply environmental care and encourage our personnel and all other organisations who may partner us in our endeavours.

In our operation we :

- Comply with all relevant environmental legislation and regulations, and other initiatives to which we subscribe
- Incorporate environmental considerations into our business operations and management processes
- Minimise negative impacts we may have on the environment, through efficient use of resources, and reduction in emissions and waste
- Identify technological solutions to enhance our ability to address environmental issues
- Work closely with our clients, suppliers, local communities, and other interested parties to continually improve our environmental practices
- Foster the initiation and ownership of environmental activities by all our staff to build a culture of environmental awareness

All employees and contractors are responsible and expected to exercise their duty of care and due diligence in the conduct of their work activities, on all sites, with a minimum impact on the natural environment and to comply with identified environmental imperatives.
