ASX Announcement

Facility Interest Paid

TerraCom Limited (**TerraCom or the Company**) (**ASX: TER**) is pleased to announce that following on from the Company's Coupon Interest payment on the Listed Euroclear Bond last week, the Super Senior Notes Interest has been paid.

The payment of this interest means the Company's debt facilities have all been serviced.

ABOUT TERRACOM – www.terracomresources.com

TerraCom has fully commissioned the **Baruun Noyon Uul (BNU) coking coal mine** in the South Gobi of Mongolia. Export shipments under a 5.5 year offtake agreement have commenced on schedule. The company's goal is to become one of the largest and highest quality coking coal producers in Mongolia, providing exceptional value for its steel-producing customers.

TerraCom has acquired the Blair Athol Coal Mine for AUD\$1 and the Queensland Government has received AUD\$79.6m from the Blair Athol Coal Joint Venture (BACJV) to meet Blair Athol Coal Mine's rehabilitation. The acquisition includes the mining lease, related licenses, land, site infrastructure, active contracts and all mining plant & equipment, including a dragline, to deliver TerraCom's forecast production schedule and the progressive rehabilitation.

The acquisition of the Blair Athol Coal Mine is a significant milestone for TerraCom, bringing the following benefits:

- Progressive rehabilitation of one of Queensland's oldest coal mines;
- The resumption of coal mining and export sales from the Blair Athol Coal mine providing the local, state and federal economies with increased economic activity, employment, royalties and taxation; and
- Forecast positive cash flow through a low overhead structure and operational efficiencies.

TerraCom plans to commence over 50 hectares of site rehabilitation while bringing the mine back into production. The operation, under TerraCom management, is planned to deliver approx. 2Mtpa over 7 years¹ and ongoing progressive rehabilitation.

In order to support further growth and expansion, TerraCom continues to evaluate cash generative assets for potential acquisition.

The Company is evaluating the acquisition of a hard coking coal mine in Kalimantan, Indonesia, a 500,000 tpa operation located in close proximity to road, barge and port infrastructure connecting it to the seaborne coal market.

Additionally, TerraCom is focused on developing two priority projects in Queensland, Australia: the large thermal coal Northern Galilee Project and the high energy prime thermal coal Springsure Project.

1- Refer 7 November 2016 ASX Announcement for further information and clarification on the Blair Athol production forecast. The material assumptions underpinning the Blair Athol production target in the 7 November 2016 ASX Announcement continues to apply and has not materially changed.
